Serial No.

OFFICE OF THE MINISTER FOR FINANCE & INDUSTRIES.
No. 5703
Date 14.6.49

1. On 14th April 1949, an agreement on behalf of Mysore Government has been signed with Raymond Lapean, Vice-Chairman of Chemical Construction Company, New York, U.S.A., for construction of the Chemical Fertiliser Plant at an estimated cost of about 2½ crores of rupees. The time required to complete the work would be nearly 22 months after commencement.

2. Sri P.R. Balakrishnan was ordered to be in charge of the scheme when the negotiations were at first started and it would be necessary to have an experienced and trustworthy officer in charge of the organisation to watch and supervise the construction. Besides, Government have also sanctioned the starting of an Alkali industry (Caustic Soda) in Mysore (Bhadravati).

3. Sri P.R. Balakrishnan after being relieved of his duties as Director of Mysore Iron and Steel Works continues to be its Vice-chairman and in charge of the following industrial concerns:-

1. The Mysore Chemicals & Fertilizers
2. The Sandal Oil Factories
3. The Mysore Dichromate Factory;

which concerns were previously under the charge of ~~him~~ Sri E.V. Ganapati Iyer as Director of Sandalwood Oil Factories. He is besides the Chairman of the Mysore Paper Mills and the Mysore Chemicals and Fertilizers. He has also to be in charge of the new Fertilizer Scheme as also the Alkali scheme which has yet to be planned and put through. It would therefore be necessary to fix his designation. I would suggest it to be Director of Metallurgical and Chemical Industries.

4. The question of his extension has also to be settled early as his term is coming to an end by 9th

October 1949. Last year, the Board of Management recommended the continuation of the services of Sri P.R. Balakrishnan until such period as is needed to implement the extensive development schemes. The preliminary of the new Cement Plant and the Electric Pig Iron Furnaces will start arriving shortly and while the former may go into production next year the latter may take a much long time to arrive, get erected and go in for production. The new fertilizer scheme is a great responsibility and needs a man of Sri Balakrishnan's experience to put through and that would take atleast a couple of years. It may necessitate his going to America shortly. The Board of Management met this year also and has recommended his extension for 2 years His health is quite good. It would be a mistake to lose his services at this juncture. I am pretty sure that his services are in great demand in other parts of India. I should therefore suggest that his service may be retained for another ~~three~~ two years atleast.

Subject:— Proposal to change the designation of and to grant an extension of service to Sri P.R. Balakrishnan, Vice Chairman, Mysore Iron and Steel Works.

Flag B

The extension of service granted to Sri P.R. Balakrishnan, Vice Chairman, Mysore Iron and Steel Works, expires on 9th October 1949

The Board of Management, Mysore Iron and Steel Works, Bhadravati having considered the paramount needs of the Works is strongly and unanimously of opinion that Sri P.R. Balakrishnan should be

J granted an extension of service for two years with effect from 9th October 1949.

K When the papers were put up to me, I minuted as follows:-

"On 14th April 1949, an agreement on behalf of Mysore Government has been signed with Raymond Lapean, Vice-Chairman of Chemical Construction Company, New York, U.S.A., for construction of the Chemical Fertiliser Plant at an estimated cost of about 2½ crores of rupees. The time required to complete the work would be nearly 22 months after commencement.

Sri P.R. Balakrishnan was ordered to be in charge of the scheme when the negotiations were at first started and it would be necessary to have an experienced and trustworthy officer in charge of the organisation to watch and supervice the construction. Besides, Government have also sanctioned the starting of an Alkali industry (Caustic Soda) in Mysore (Bhadravati).

Sri P.R. Balakrishnan, after being relieved of his duties as Director of Mysore Iron and Steel Works, continues to be its Vice-Chairman and in charge of the following industrial concerns:-

(1) The Mysore Chemical & Fertilizers
(2) The Sandal Oil Factories
(3) The Mysore Dichromate Factory

which concerns were previously under the charge of Sri E.V. Ganapati Iyer as Director of Sandalwood Oil Factories. He is besides the Chairman of the Mysore Paper Mills and the Mysore Chemicals and Fertilizers. He has also to be in charge of the new Fertilizer scheme as also the Alkali Scheme which has yet to be planned and put through. It would therefore be necessary to fix his designation. I would suggest it to be Director of Metallurgical and Chemical Industries.

The question of his extension has also to be settled early as his term is coming to an end by the 9th October 1949. Last year, the Board of Management recommended the continuation of

the services of Sri P.R. Balakrishnan until such period as is needed to implement the extensive development schemes. The preliminary of the Cement Plant and the Electric Pig Iron Furnaces will start arriving shortly and while the former may go into production next year the latter may take a much longer time to arrive, get erected and go in for production. The new Fertilizer Scheme is a great responsibility and needs a man of Sri Balakrishnan's experience to put through and that would take atleast a couple of years. It may necessitate his going to America shortly. The Board of Management met this year also and has recommended his extension for 2 years. His health is quite good. It would be a mistake to lose his services at this juncture. I am pretty sure that his services are in great demand in other parts of India. I should therefore suggest that his services may be retained for another two years atleast."

The matter was considered at a meeting of the Council held on 21st June 1949 when the following resolution was recorded:-

"Council is of opinion that an extension of service for two years from 9th October 1949 may be granted to Sri P.R. Balakrishnan, Vice-Chairman, Mysore Iron and Steel Works. He may be designated Director of Metallurgical and Chemical Industries."

I solicit the gracious approval of His Highness to the resolution of the Council.

H.C. Dasappa.

THE MYSORE IRON AND STEEL WORKS
BHADRAVATI

No.VC 1216. 30th April 1949.

The Secretary to Government of
His Highness the Maharaja of Mysore,
Development Department,
Public Offices,
BANGALORE.

Dear Sir,

Second extension of service to Sri P.R. Balakrishnan, Director & Vice-Chairman.

IN reference to resolution of the Board passed at its meeting held on 26th December 1947, as noted hereunder, viz., "The Board was therefore of opinion that in the interest of the future of the Works, the Chairman should press the special circumstances of the case before Government and obtain their orders for continuing the services of Mr. P.R. Balakrishnan, until such period as is needed to implement the Development Schemes on hand", communicated in this Office letter No.VC 601 dated 9th January 1948, Government in their Order No.9672-4/C.B. 334-47-1 dated 19th June 1948 have been pleased to grant the extension of services of Sri Balakrishnan for a period of one year with effect from 9th October 1948, the date of his super-annuation. This extension ends on 9th October 1949. The Development Schemes on hand are expected to be completed as noted

-2

below:

	Total estimated cost.	Period of completion.
1) Cement Plant Extension	55.5 lakhs	By March 1950
2) Ferro Silicon Plant	18.2 "	-do-
3) Acetic Acid Plant	13.6 "	By June 1950
4) Electric Pig Iron Furnace	129.0 "	-do-1951
5) Improvements to Pattern Shop, Foundry, Yard etc.	26.25 "	
Total:-	242.55 lakhs.	

To complete the manufacture of one lakh of tons of finished steel according to proposals that have been worked out and have been generally approved by the Steel Consultants to the Government of India, during their inspection visits, the following Plants have to be ordered and installed:

1) A Billet & Light Structural Mill	50 lakhs
2) A Bessemer Electric Duplex Plant	35 "
3) A Special Steel & Tool Steel Plant	25 "
4) An Expanded Strip Mill	50 "
5) A Wire & Wire Nail products Plant	25 "
	185 "

with corresponding expansions of the Foundries and Machine and Structural Shops etc. The first three may be completed by about the end of 1951 and the rest a year later. The total estimated cost of the above as may be seen is nearly Rs.4.3 crores. A Stainless Steel Plant combined with manufacture of Silicon Electric Steel Sheets and a Tube Mill proposed to be installed at a further additional cost of nearly Rs.1.5 crores, installed before the end of 1953 will complete the full programme of Developments on hand.

The question of further extension of service to Sri Balakrishnan, was considered by the Board at its meeting held

on 11th April 1949. I am directed to communicate the following resolution passed:

"29) (d) (iv) Extension of service to Sri P.R.Balakrishnan, Director and Vice-Chairman.

Read Note No.VC 997 dated 1st March 1949 regarding extension of service to Sri P.R. Balakrishnan.

The Board has considered the paramount needs of the Works and is strongly and unanimously of opinion that Sri P.R. Balakrishnan, be granted an extension of two years", and request you to kindly obtain and communicate the orders of Government early.

Yours faithfully,

sd/ R. Bharaniah,
Secretary,
Board of Management.
